

PRELIMINARY CONCEPT

OPTION ONE - DIRT JUMP LINES

Option 1 includes, in addition to the MTB jump lines, a dedicated set of dirt jump lines. These lines are designed with scale and spacing that reward strong technique, precise timing, and rider commitment. Dirt jumps remain a core feature for both BMX and MTB users and hold strong cultural significance, representing a foundational riding experience with roots in the early evolution of freestyle tricks on bikes. The dirt jumps will start from the same start mound as the MTB jumps and utilises the same return trail.

- 01 BMX Track
- 02 Swale crossing
- 03 Start mound
- 04 Shelter/seating
- 05 Beginner MTB jump line
- 06 Intermediate MTB jump line
- 07 Advanced MTB jump line
